

# Thai Traditional Medicine College

## Rajamangala University of Technology Thanyaburi

### 1. The College

In 1999 (B.E. 2542), the Applied Thai Traditional Medicine Course (3-year certificate level) was developed as a cooperation between Rajamangala Institute of Technology and Institute of Thai Traditional Medicine, Ministry of Public Health. Later in 2004, the course was extended to Bachelor of Science (Applied Thai Traditional Medicine) as a 4-year program and a credit transferred 2-year program. In accordance with the Rajamangala University of Technology Thanyaburi(RMUTT) Act 2004, commencing on 18 January 2005, the Thai Traditional Medicine College (TMC) was established on 25 December 2006.

### 2. Academic and Supporting staffs

There are 11 full-time academic staff and 25 supporting staff in 2007. TMC expects to promote the number of professional staff up to 37 within 5-year plan. (please see the following tables)

#### Supporting staff

**Table 2 Classification according to the education qualifications**

Certificate	B.S.	M.S.	Ph.D.	Total
3	10	10	2	25

### 3. Academic service, Social service, Treatment service, and Research & Development

The Thai Traditional Medicine College offers two Undergraduate Programs as the followings

- 1) Applied Thai Traditional Medicine
- 2) Aesthetic Health and Thai Spa\* (starts in 2007 academic year)

The TMC social service aims mainly on the short course training programs. Such training programs includes the Thai traditional massage, foot massage, herbal medicinal products, as well as Thai herbal medical spa and beauty products.

The college also provides treatment service such as applied Thai traditional medicine treatment, face and body beauty treatment. The Thai traditional medicine and herbal medical spa products are also available for sale. Opening hours are 10:00 – 19:00 on Monday to Friday except holiday.

Our research is focused on conserving and transferring Thai traditional knowledge to practice. Furthermore, TMC also aims to promote good health by applying Thai traditional medicinal products and Thai herbs both in human and animal.
